

# M-CAFE Week 7 Update

M-CAFE Team

October 6, 2015

## Participation Summary:

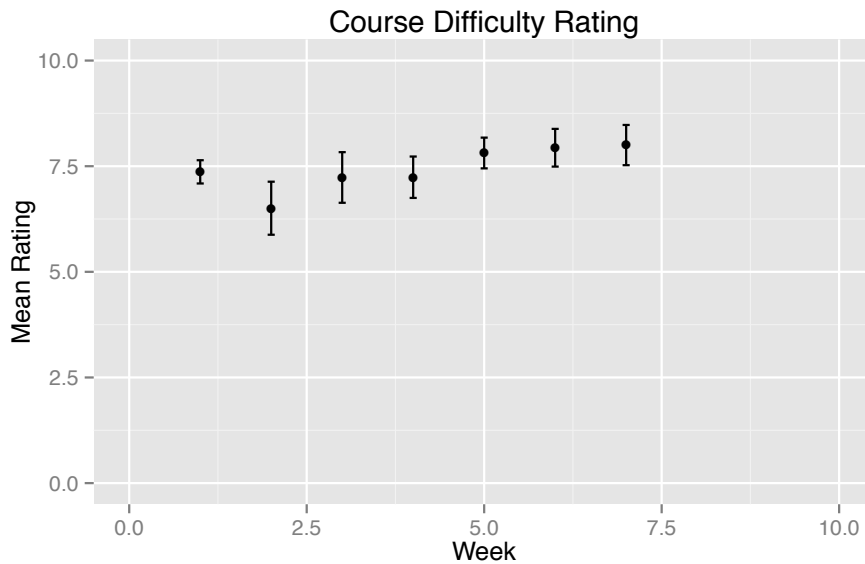

15 students responded the QATs this week.

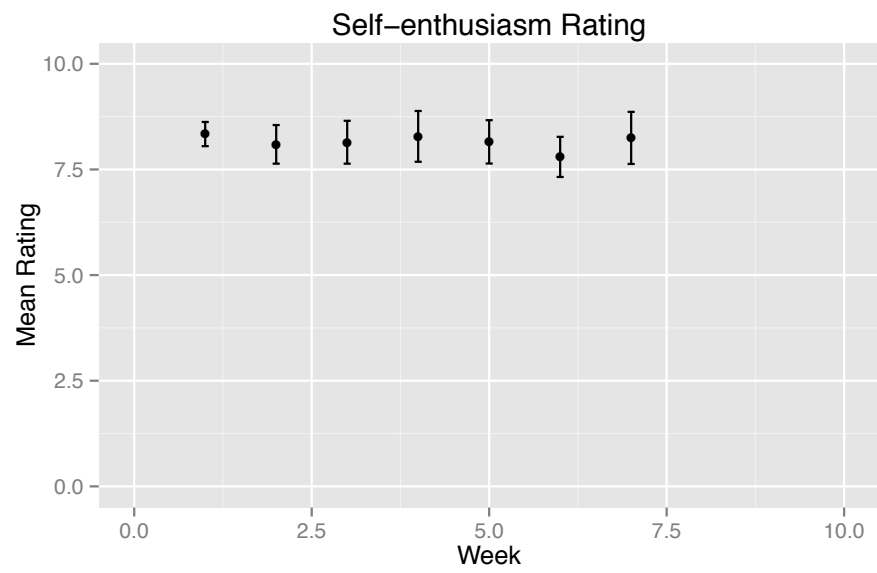

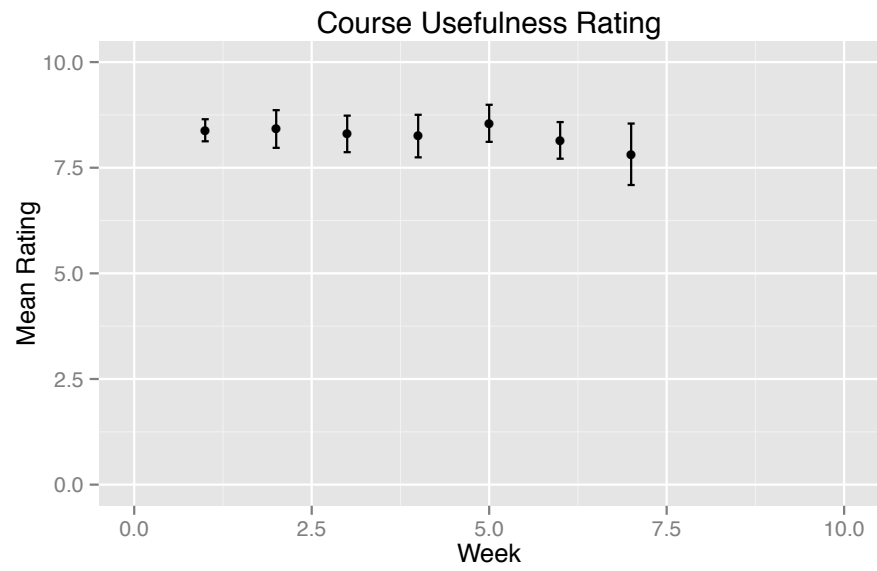

11 new ideas with 5 rated.

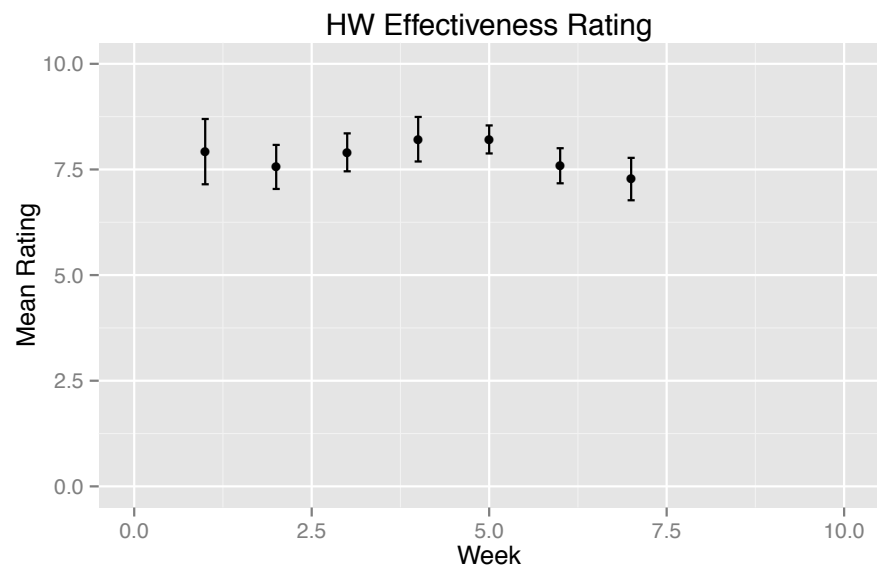

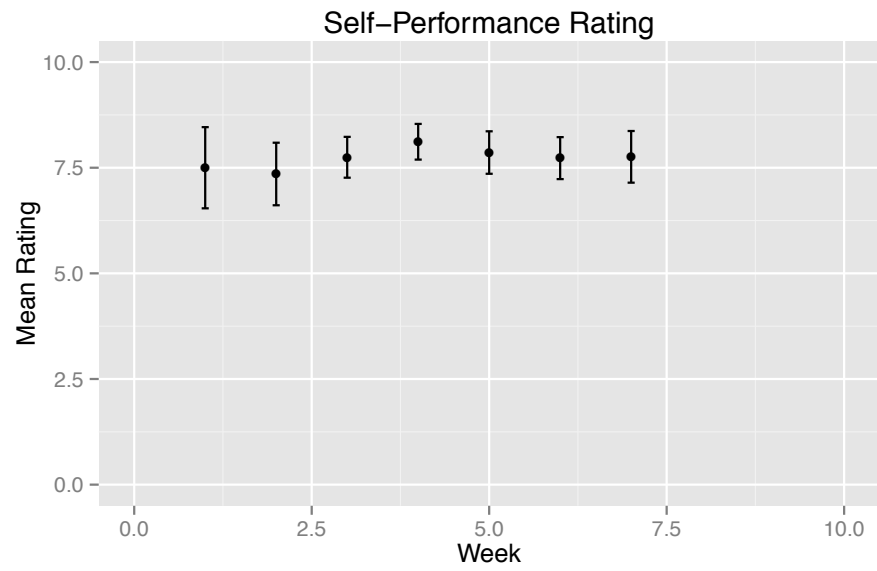

72 total ideas with 880 total peer-to-peer ratings.

## Mean values of QATs up to this week:

\*Plots are based on the mean ratings each week for the entire class. The error bars indicate 2 SEs above and below the mean.

## New ideas

\*Ideas are ranked by their Wilson scores. Ideas with no ratings so far are displayed at the end.

Time	Score	# Rating	Idea
2015-10-02 23:25:18	1.33	2	If something on the homework does not get covered in lecture, possibly postpone that question to the next homework. In particular, number 3 on the last homework about INSERT was super confusing, and my wrote my answer based on what I Googled but don't understand what I did.
2015-10-05 12:46:34	1.07	3	It would be nice if we we went over/clarified some of the stuff that we had to look up online ourselves for the last homework
2015-10-04 17:25:40	1.00	4	If you could indicate which sections of the textbook pertain to each lecture, that would be much appreciated. Sometimes students can't attend lecture and it would help if we knew which parts of the textbook to read so that we can stay up to date with the material.
2015-10-04 23:28:16	1.00	3	It would be nice to get a "cheat sheet" with all of the operations written out nicely. The resources online for relational algebra can be kind of lacking.
2015-10-02 14:39:49	0.82	1	It would be useful if we can schedule appointments in class to discuss our project (with Mo and Professor Goldberg).
2015-10-02 23:24:40			If something on the homework does not get covered in lecture, possibly postpone that question to the next homework. In particular, number 3 on the last homework about INSERT was super confusing, and my answer was pretty much a complete guess even after Googling things.
2015-10-05 10:07:49			Can lecture notes be provided online so that we can compare our notes to them? I'm not sure if I know the background reasoning on different actions/procedures made in the class examples are correct.
2015-10-05 10:11:55			During Lab, can Mo provide her notes for MS Access since it gets challenging to keep up with her while we are typing in content and creating tables.
2015-10-06 01:48:07			For those of u that like to have some reference outside of notes, it would be nice to have some take home "cheat sheat" print outs as the notation you use i different from outside sources.

2015-10-06 01:48:28		For those of u that like to have some reference outside of notes, it would be nice to have some take home "cheat sheet" print outs as the notation you use i different from outside sources.
2015-10-06 11:16:30		The project seems a little stop and go. We haven't been able to work on it for a week or so, but I feel like we'll soon be expected to do a bunch of work for DP2. It would be helpful if we could have the tools to have a more constant level of work on the project.
