

M-CAFE Week 4 Update

M-CAFE Team

September 14, 2015

Participation Summary:

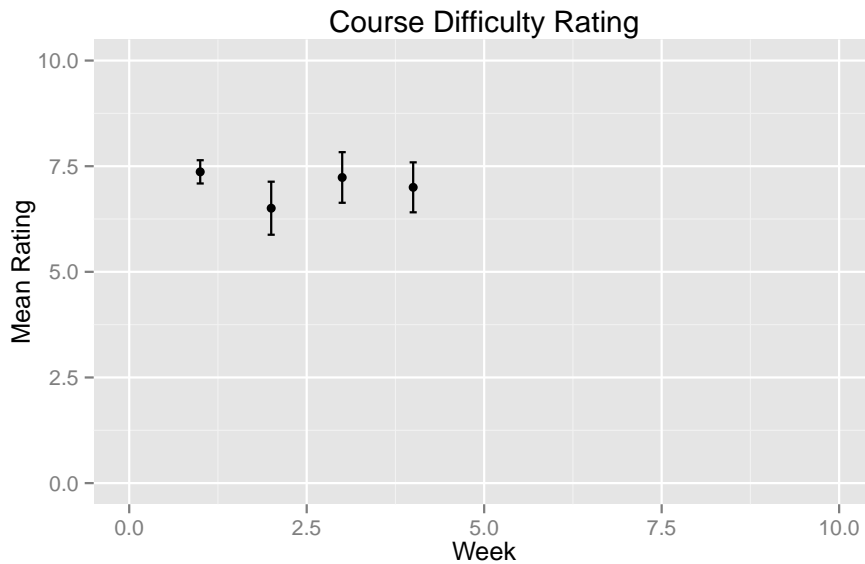

20 students responded the QATs this week.

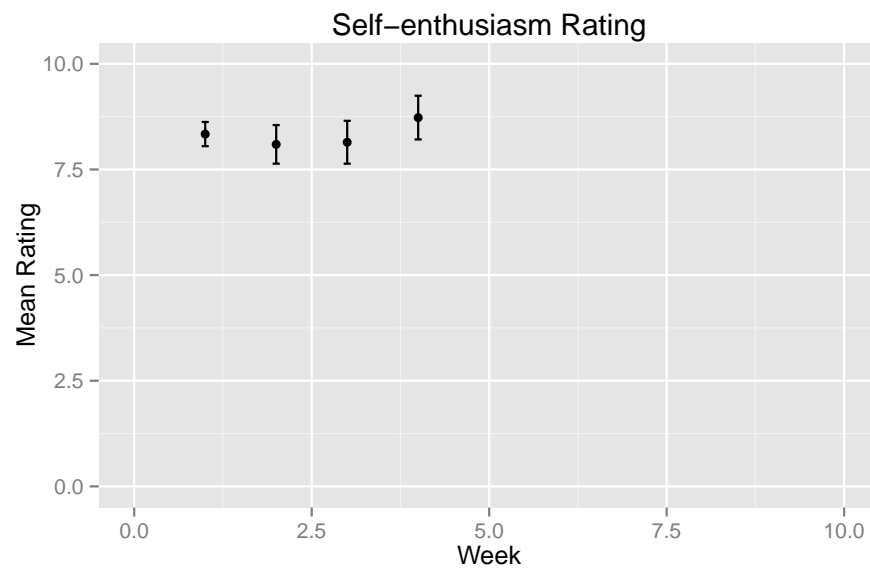

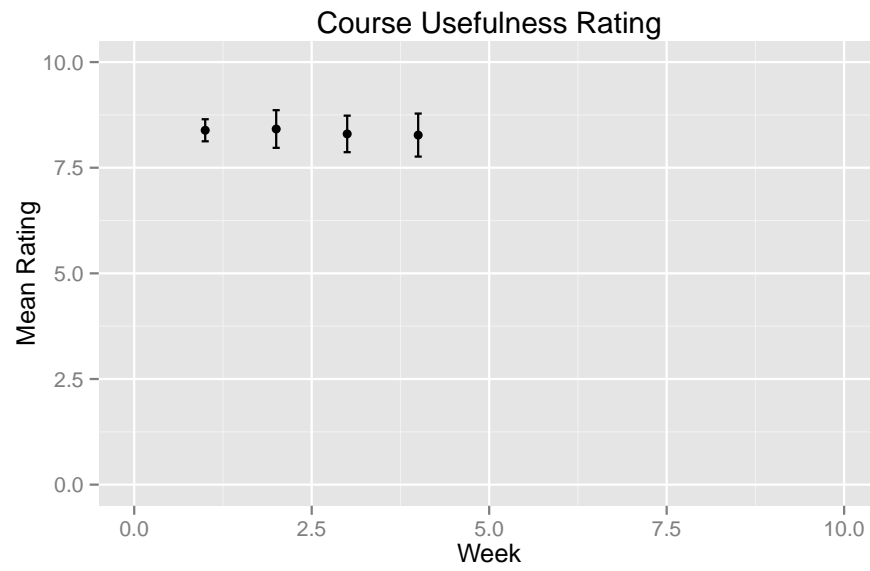

8 new ideas with 6 rated.

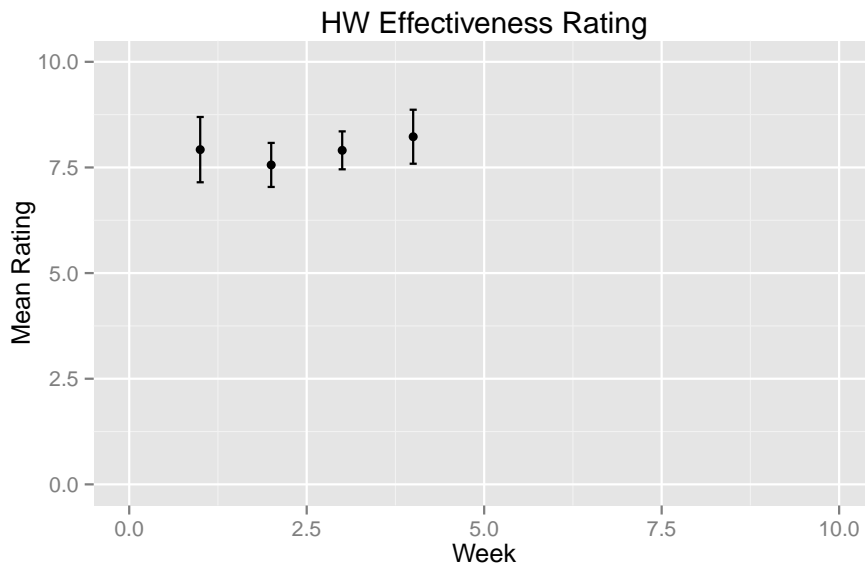

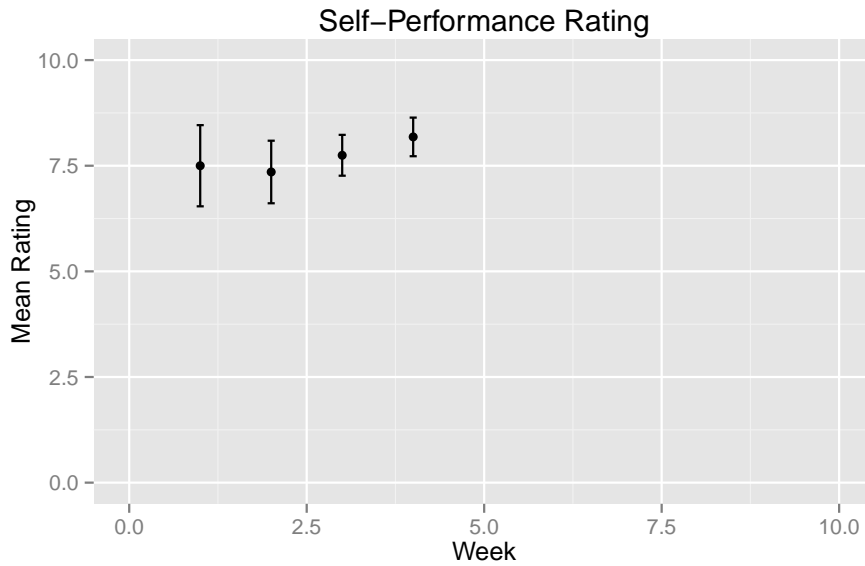

39 total ideas with 521 total peer-to-peer ratings.

Mean values of QATs up to this week:

*Plots are based on the mean ratings each week for the entire class. The error bars indicate 2 SEs above and below the mean.

New ideas

*Ideas are ranked by their Wilson scores. Ideas with no ratings so far are displayed at the end.

Time	Score	# Rating	Idea
------	-------	----------	------

2015-09-11 12:10:11	1.34	5	It would be great if everything on the homework is covered beforehand in class.
2015-09-11 18:10:49	1.16	2	If possible, posting an outline of every lecture will be very helpful considering the fast pace of the lecture. As a result, we can pay more attention to the explanation instead of putting too much effort in copying down everything in the notes.
2015-09-11 13:42:40	1.12	4	The discussion sections could be clearer. It is difficult to see what kind of table manipulations are going on.
2015-09-11 15:43:13	0.86	3	I needed a bit more time to fully understand the EER Diagrams. I was still left confused on some parts, such as knowing when to exactly use <code>\o,d\</code> and <code>\t,p\</code> .
2015-09-11 18:34:34	0.73	1	More productive lab sections. I feel like I'm not learning much, we just play around in Access.
2015-09-13 11:24:18	0.05	2	For the first quiz, it would have been nice if the lab was posted with the assignment. Instead, it said no file and was unclear if there actually was a quiz.
2015-09-11 12:18:25			I think everything has been fine so far
2015-09-13 15:22:06			Can we use one of the lab to teach us LaTeX?
