

M-CAFE Week 5 Update

M-CAFE Team

September 28, 2015

Participation Summary:

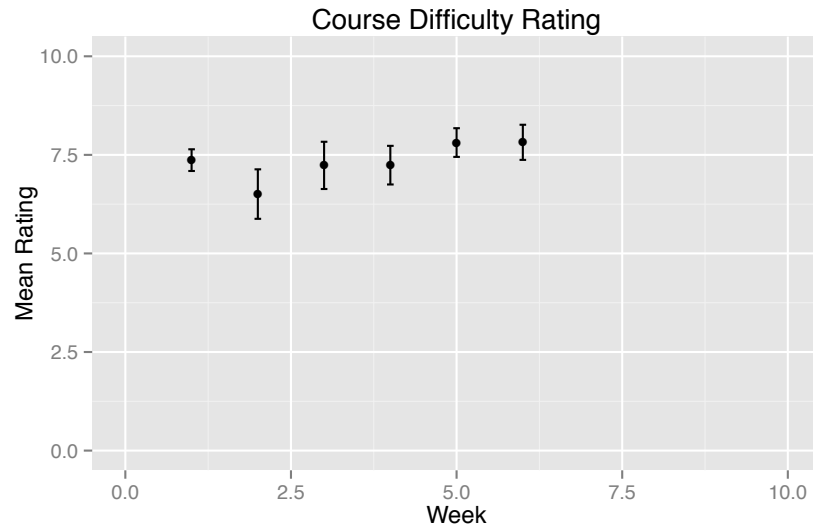

32 students responded the QATs this week.

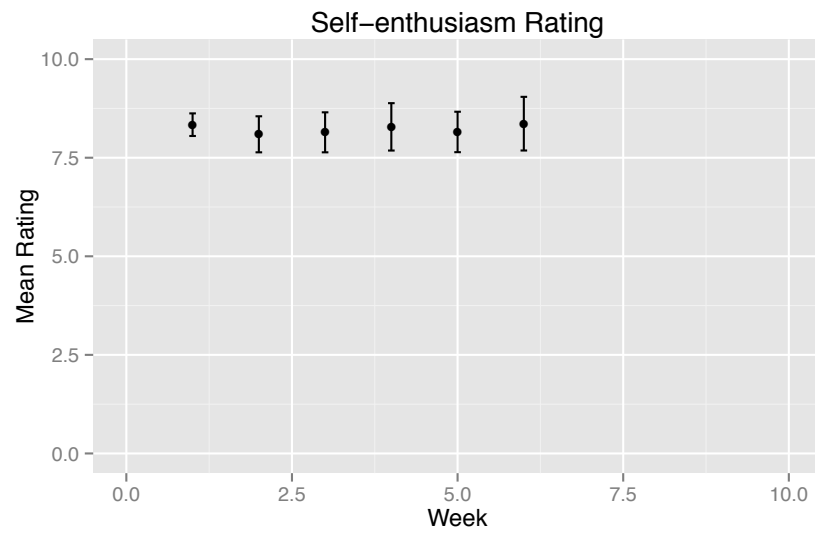

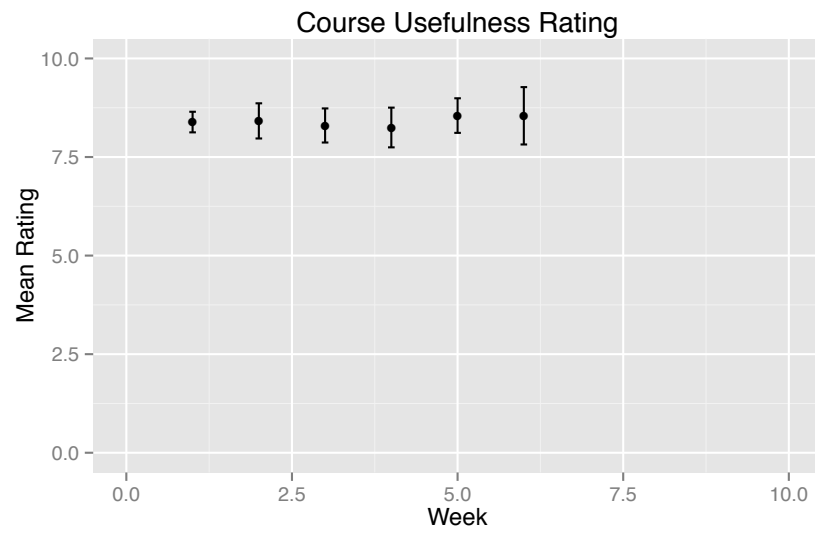

10 new ideas with 8 rated.

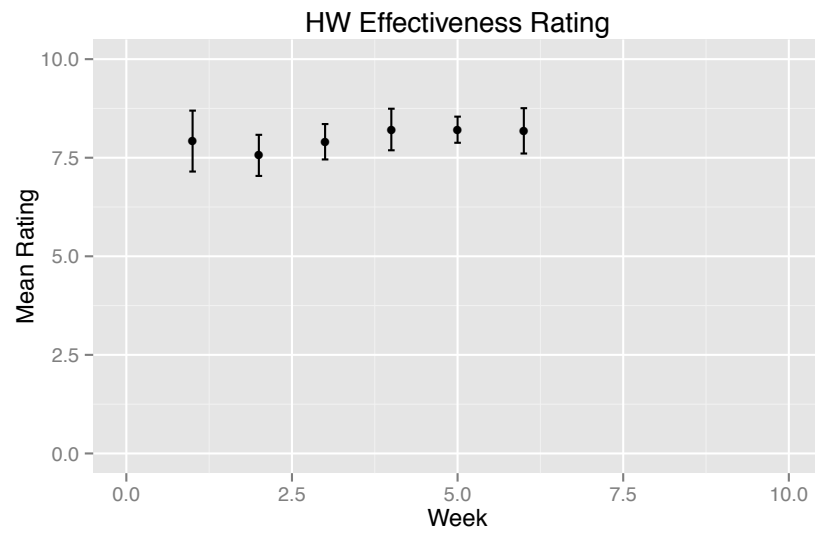

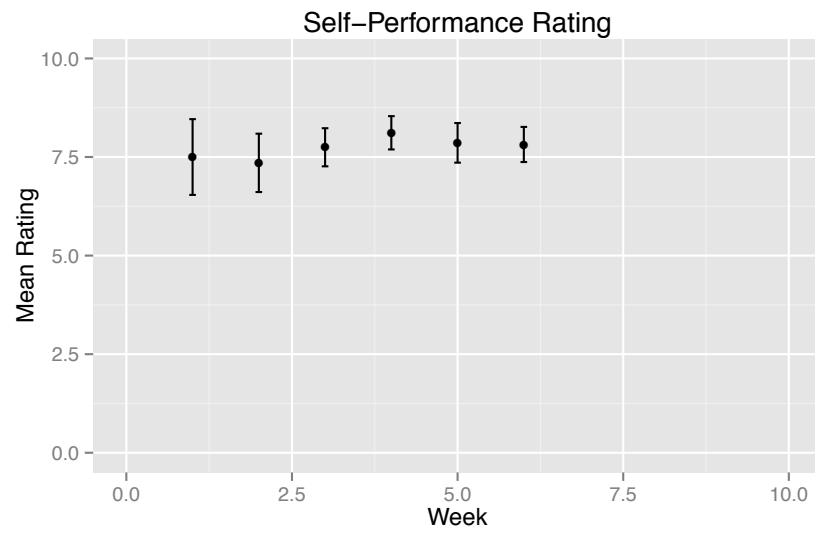

54 total ideas with 724 total peer-to-peer ratings.

Mean values of QATs up to this week:

*Plots are based on the mean ratings each week for the entire class. The error bars indicate 2 SEs above and below the mean.

New ideas

*Ideas are ranked by their Wilson scores. Ideas with no ratings so far are displayed at the end.

Time	Score	# Rating	Idea
2015-09-20 10:55:37	1.69	2	I appreciate how both the professor and GSI have been very responsive to students and I appreciate how they are willing to change the timeline of the course (such as pushing the HW due date back since we have not covered enough material in lecture yet). The feedback from the presentations was also very helpful.
2015-09-21 09:15:18	1.27	4	We should have a forum for asking homework and quiz questions either through Piazza or the discussions tab on bCourses. This would help with clarifying homework and quizzes, which tend to have ambiguous language.
2015-09-20 10:40:44	1.27	12	Homework 2 only has database questions, maybe put some connectives?
2015-09-24 20:35:08	1.22	5	Please slow down the pace of the lecture/course! Every day we're learning something new, so it would be much appreciated if we had some time to digest the material before moving on.
2015-09-20 12:11:15	1.17	10	Provide feedback on homework/quizzes. I got marked off, but have no idea why.
2015-09-20 17:34:33	1.09	3	It would be useful/interesting to have the last 5 minutes in lecture be about how the current topic or discussion can be applied towards our projects.
2015-09-24 20:26:55	1.08	2	The last few lectures have been very mathematically precise in notation, which can make it a bit tricky to wrap your head around. Specific questions/examples (like what might be on hw) would be great to help us make sure we understand it moving forward.
2015-09-21 18:09:00 2015-09-21 22:37:25	1.02	7	Have interesting topics to work on the Lab. Please be consistent about marking quizzes and homework due on bCourses. Quiz 2 wasn't on the side bar that has what assignments are due in the future and I almost missed it.

2015-09-24 17:41:08		Sometimes it's hard to tell what the GSI is clicking on during lab because the display on the projection is very small and it goes really fast, so it would be really helpful if she also wrote what we were doing on the board (or just went slower and clarified everything verbally) because we usually have extra time at the end anyways
