M-CAFE Week 3 Update

## M-CAFE Team

February 8, 2016

**Participation Summary:**

49 students responded the QATs this week.
12 new ideas with 11 rated.
20 total ideas with 250 total peer-to-peer ratings.

Mean values of QATs up to this week:

*Plots are based on the mean ratings each week for the entire class. The error bars indicate 2 SEs above and below the mean.

Course Difficulty Rating

Course Usefulness Rating

Self−enthusiasm Rating

Self–Performance Rating

HW Effectiveness Rating

New ideas

*Ideas are ranked by their Wilson scores. Ideas with no ratings so far are displayed at the end.

Time	Score	# Rating	Idea
2016-02-03 17:21:59	1.42	10	Some of the training that we need to do (for example laser cutter training) should be specified in a clear manner in the syllabus.
2016-02-03 17:24:12	1.39	8	I would give more weight to later design assignments in the course or do a homework zero project for no grade to give people an understanding of what a good project is. With so few assignments doing badly on the first one or two as you begin to understand design is pretty brutal.
2016-02-03 17:24:34	1.38	6	As much as I understand that grading creativity and design can be very subjective, I'm worried about my grade (GPA)! What should I do?
2016-02-03 17:13:54	1.26	11	Go into color theory
2016-02-01 20:49:21	1.26	13	More videos to give tutorials on design would be beneficial because I don't really think of myself as a very creative person.
2016-02-03 17:22:22	1.16	9	I would like to see a gsi example for each assignment to give me an idea of what you expect for our design process
2016-02-03 17:27:26	1.15	4	provide some spaces for us to work on design hw together!! as a beginner i feel like the best way to learn is to be able to ask someone experienced how they would approach certain things... like i was creating white rectangles to cover part of my design and then realized there was a crop option... LOL.
2016-02-03 17:23:38	1.11	9	Better grading system and more information on what is required
2016-02-03 17:23:59	1.11	5	More hands on/ lab time during the class would be helpful. Maybe instead of meeting once a week, it would be better to meet twice a week.
2016-02-03 17:22:29	1.10	7	Clear up the logistics on peer reviews! What are they, when are they due etc.
2016-02-03 17:23:47	1.05	12	Design Studio or other stimulating surroundings
2016-02-03 17:27:27			Better instructions to softwares
